

Custom Brass Belt Buckles - Hand Made in the USA - Lifetime Guarantee of Quality

How to get started designing your own custom belt buckle.

The design is a very significant part of the process. The more you can contribute to this part of the process will make the belt buckles more detailed, personal, and will contribute to the aesthetic value of your custom design.

Take a look at the different belt buckle border shapes that you can choose from or we can design a unique shape just for your custom edition of belt buckles. You can email us your design specifications such as border shape, any text or wording that you would like on the buckle. Also attach any additional information, artwork, photographs, sketches, logos, emblems, and pictures necessary to complete the design.

We will create a graphic artwork proposal of the belt buckle to your desired specifications.

Border Shapes

These are just some basic shapes and styles.
