

Custom Brass Belt Buckles - Hand Made in the USA - Lifetime Guarantee of Quality

## Custom Belt Buckles

Cost may vary on custom designs - Prices quoted upon request.

### Straight Design Master Pattern - \$150.00

The border shape, text, logos, emblems, and any drawn artwork pictures are polished to a shine at the same level from the background. The background is recessed about 1/16" and darkened with a rich antique patina. This is our most requested way to have a master pattern prepared.

### Sculptured Design Master Pattern - \$300.00+ Quoted Upon Request

Prepared similar to the Straight Design but gives you the opportunity to have a higher relief from the background. Multiple levels, curves and accents give this design a 3-dimensional look. Usually takes extra time, materials and attention to details. Cost varies and depends on the complexity of the design.

**Specialty Backside** - Information cast into the backside of the belt buckles. **\$150.00**

## Traditional Brass

Our **Traditional Brass** is technically a bronze and is a very high quality metal that can take the punishment of everyday wear. It has a brilliant shine when polished and slowly turns a natural patina over time. To keep the shine we recommend using a specially treated cotton wadding called Never-Dull available at most hardware stores. We prefer the color of the natural patina it gets after wearing it for years.

## Custom Belt Buckle Prices
